

Adrian Hernandez

Anaheim, CA 92804 | esnecpe356@gmail.com | LinkedIn.com/in/adrianpaulhernandez/ | 714-818-7782

SKILLS

Technical Skills (Programming Languages): Python, Java, C++, C#, R, MATLAB, JavaScript, SQL, HTML, CSS, x86 Assembly, Next.js, React, Svelte.

Software: PyTorch, Pycharm, OpenCV, VScode, Qt Creator, SQLite, RStudio, Microsoft 365, PASCO Capstone, Jupyter Notebook, MySQL Workbench, Microsoft Azure, OpenAI API, Linux, Git, Xcode, AWS, Claude, Wireshark, Figma.

Soft Skills: Leadership, Customer Service & Relationship Management, Communication, Time Management & Multitasking, Problem Solving, Teamwork, Adaptability, Public speaking.

Languages: Fluent in Spanish & English.

EDUCATION

California State University, Fullerton

Expected May 2027

Bachelor of Science in Computer Science

Major in Computer Science; Minors in Cybersecurity and Mathematics.

Relevant Coursework: R programming, Statistics Applied to Natural Science, Cybersecurity, Algorithm Engineering, Software Engineering, Operating System Concepts, Computer Organization & Assembly Language, Artificial Intelligence.

Cypress College

August 2019 - May 2024

Relevant Coursework: Data Structures, Python & Java programming, Intro to Programming C++, C# programming.

PROJECTS

Hash Cracker (~20+hours)

Aug 2024 – Aug 2024

Python | Cryptography | Cybersecurity | Linux

- Developed a Linux password-hashing tool that used dictionary and brute-force techniques to test MD5, SHA-1, and SHA-256 hashes.
- Automated hash comparison to evaluate password strength and deepen understanding of secure password storage and hash vulnerabilities.

Library++ (~60+hours)

Oct 2025 – Dec 2025

C++ | Qt Creator | SQLite | Object-Oriented Design

- Developed a C++ and Qt desktop library-management application with book search, detailed views, and a SQLite backend.
- Applied object-oriented design, database queries, UML documentation, and GitHub version control to improve maintainability and collaboration.

Gemstone Price Prediction (Machine Learning Project) (~80+hours)

July 2025 – Dec 2025

Python | Pandas | NumPy | Scikit-Learn | Azure Machine Learning

- Built a complete machine-learning pipeline for data ingestion, cleaning, feature engineering, model training, and evaluation.
- Compared Scikit-Learn models with appropriate metrics and tracked reproducible experiments using Azure Machine Learning.

PicoBoot GCN Loader — GameCube Bootloader (~20+hours)

Nov 2024 – Dec 2024

C | Python | CMake | Shell | Embedded Systems | Hardware Security

- Configured a Raspberry Pi Pico bootloader and modified timing-sensitive C code to interact with the Nintendo GameCube boot process.
- Automated build and flashing workflows with Python, shell, and CMake while analyzing embedded-system and secure-boot principles.

WORK EXPERIENCE

Walmart

Westminster, CA

Sales Associate/Stocker Associate / Electronic Associate / Cashier / Customer Service

Feb 2017 – Present

- Delivered customer service across electronics, sales, stocking, cashier, and service roles while maintaining accurate transactions, resolving issues, supporting inventory needs, and coordinating with teams in a high-volume environment.

El Pollo Loco

Anaheim, CA

Cashier / Food Handler / Food prepping / Customer Service

July 2018 – March 2019

- Handled cashier, food preparation, and customer-service responsibilities concurrently while following safety and quality procedures and coordinating with teammates during peak periods.

CLUBS & ORGANIZATIONS

EOPS & PUENTE PROGRAMS

August 2019 - May 2024

Member

- Mentored Spanish-speaking students and collaborated with peers and advisors on academic planning, transfer requirements, campus resources, and balancing school, work, and personal responsibilities.
